A teacher's relationship with a child plays a significant role in setting them up for success

Positive Relationship

1. Trust: Builds trust and confidence in the child.
2. Support: Provides emotional support and encouragement.
3. Guidance: Offers guidance and direction in learning.

Thank you
Hency Vaghani

The relationship between children and their teacher plays a significant role in shaping their learning experience.

A supportive and nurturing teacher-student relationship can foster a sense of trust, encourage active participation, and promote academic engagement.

When teachers build strong relationships with their students, they create a safe and inclusive learning environment where children feel valued, heard, and motivated to learn.

PARENTS CORNER

Parenting in the Pressure Cooker

If you want this pressure cooker off your head -
Understand these 4 words

> Patience
> Acceleration
> Comparison
> Burnout

- Sack race
- Roll the tyre

Story time
- The Greedy dog

Activity of the month
- Yoga day

Pinching different Objects

Puzzles

Rathyatra Celebration

Why Story Time Matters:

Story time is not just about reading; it's about creating a nurturing environment that fosters a love for learning, develops language skills, and encourages critical thinking.

By incorporating story time into kindergarten education, children can develop essential skills, build strong relationships, and cultivate a love for reading that lasts a lifetime

12/B Shakti Society B/H Andh udyog shala, Vidyanagar, Bhavnagar

The relationship between a school and its students is built on mutual respect, trust, and support. Schools provide a nurturing environment, quality education, and opportunities for growth, while students bring enthusiasm, curiosity, and dedication .

Thank you
Seema Ghanvani

This partnership fosters academic excellence, personal development, and social responsibility, empowering students to thrive and reach their full potential. By working together, schools and students create a positive and productive learning experience.

PARENTS CORNER

Two hugs a day is the recipe.
Bye-bye to school hug
& the good night hug.
This keeps your child happy & stress- free.
These hugs release the oxytocin hormone.
Which is the love hormone.

Newsletter is important for parents as it keeps them informed about school events, activities, and important dates, while also updating them on their child's progress, milestones, and achievements.

Thank you
Aneri Shah

By sharing relevant information and resources, newsletters also support parents in their child's learning and development, ultimately making them feel more involved, informed, and connected to their child's education.

PARENTS CORNER

- Burden and pressure will only backfire.
- So, understand your child's capacity & capability.
- Every child is different.

Independence Day Celebration

Why Activity Based Learning is important ?

Activity-based learning (ABL) is an educational approach that emphasizes hands-on, experiential learning.

- Improves retention
- Deeper understanding
- Develops critical thinking
- Increases engagement
- Fosters curiosity
- Develops problem-solving skills

12/B Shakti Society B/H Andh udyog shala, Vidyanagar, Bhavnagar

Pre-Writing Skills and its importance -

Pre-writing skills are crucial for developing writing abilities in children.

These skills include activities like drawing, scribbling, and manipulating writing tools, lay the foundation for future writing success.

By engaging in pre-writing activities, children develop fine motor skills, hand-eye coordination, and finger dexterity, all essential for holding pens or pencils and writing.

Pre-writing skills also foster creativity, self-expression, and imagination, allowing children to express themselves and their thoughts.

Children feel secure and supported, leading to increased trust in their teacher.

Positive relationships with teachers can lead to better behavior and reduced discipline issues.

Thank you
Krinaba Zala

When children feel comfortable and connected with their teacher, they're more likely to engage and learn.

Teachers can provide emotional support, helping children develop emotional intelligence and resilience.

PARENTS CORNER

Should we accept all the demands of our children.

Try this filter theory. Check whether the Demands are :
GENUINE, CORRECT, & ACTUALLY NEEDED

Why No Competition for Preschool Students

1. Emphasis on growth: Preschool focuses on individual growth and development.
2. Building confidence: Avoiding competition helps build confidence and self-esteem.
3. Encouraging exploration: Preschool encourages exploration and learning without pressure.

12/B Shakti Society B/H Andh udyog shala, Vidyanagar, Bhavnagar

Why Play-Based Learning is Important in Preschool

1. Promotes creativity

Play encourages imagination and creative thinking.

2. Develops problem-solving skills

Children learn to think critically and solve problems.

3. Enhances social skills

Play helps children develop social skills like sharing, cooperation, and communication.

4. Builds confidence

Play-based learning fosters self-esteem and confidence.

5. Fosters curiosity

Play encourages children to explore and learn.
